

# **Test/Quiz Corrections Policy**

## **Steps to be completed:**

1. Type the question out. Repetition is good.
2. Identify the learning objective that was being assessed.
3. Enter the correct answer.
4. Include a link to a website, YouTube video, blog post, page number in the book, or article that gives the correct answer as a reference. This is so you can go back and find it later if you need to re-learn the material.
